4. _____ is a short-range wireless connectivity standard that uses magnetic field induction to enable communication between devices when they're touched together, or brought within a few centimeters of each other.

1. Far Field Communication(FFC)
2. Wireless Fidelity (Wi-Fi)
3. Near Field Communication(NFC)
4. All of these

Solution : Near Field Communication(NFC)

5. In computer technology, _____ is a program, usually part of a compiler, that receives input in the form of sequential source program instructions

1. RAM
2. Cache
3. Parser
4. All of these

Solution : Parser

6. Which is a standard interactive and programming language for getting information from and updating a database?

1. dynamic data exchange
2. Structured Query Language
3. ASCII
4. Erlang programming language

Solution : Structured Query Language

[For more questions visit our website please click here](#)

7. Which of the following is a program that controls the computer's resources?

1. Application Software
2. Compiler
3. Interpreter
4. Operating System

Solution : Operating System

8. Which of the following is a two-dimensional barcode consisting of a black and white pixel pattern which allows to encode up to a few hundred characters?

1. UPC code

2. EAN code
3. CODE 93
4. Quick Response Code

Solution : Quick Response Code

9. The fastest component for accessing stored data is _____

1. DVDs
2. Cache
3. hard disks.
4. main memory.

Solution : Cache

13. Which of the following is a cyber attack intended to redirect a website's traffic to another, fake site?

1. Pharming
2. Phishing
3. Piracy
4. Both (A) and (B)

Solution : Pharming

14. In computing, _____ is an Adaptec-developed programming interface which standardizes communication on a computer bus.

1. ASPI
2. MTBF
3. SCSI
4. All of these

Solution : ASPI

15. _____ is the masking of server resources, including the number and identity of individual physical servers, processors, and operating systems, from server users.

1. PC virtualization
2. Server virtualization
3. Desktop virtualization

4. All of these

Solution : Server virtualization

16. While selecting multiple worksheets in Excel, the following key must also be used when clicking the sheet tab

1. Alt
2. Insert
3. Ctrl
4. Shift

Solution : Ctrl

17. _____ is a method of providing website content such as news stories or software updates.

1. RSS
2. Upgrading
3. Piracy
4. Both (1) and (2)

Solution : RSS

18. Which of the following is a method of transferring information between digital devices, especially audio and video equipment?

1. USB
2. Integrated Drive Electronics (IDE)
3. Small Computer System Interface(SCSI)
4. Firewire

Solution : Firewire

[For more questions visit our website please click here](#)

19. Which of the following is a type of malware that collects information about users without their knowledge?

1. Spam
2. Freeware
3. Spyware
4. Trojan Horse

Solution : Spyware

20. A portion of the worksheet displayed on the screen can be viewed through a _____

1. Worksheet Window
2. the active window
3. the task bar
4. the cell

Solution : Worksheet Window
